Medicines Classification Committee
Medsafe
PO Box 5013
Wellington

Dear Sir,

Reckitt Benckiser (New Zealand) Ltd. Submission to 45th MCC Meeting.

Reckitt Benckiser appreciates the opportunity to provide this submission for consideration by the members of the MCC at their 45th meeting.

We refer to the 44th Meeting minutes, item 6.2 where the Committee made the following comment:-

“The Committee considered that it would be prepared to support a limited change in pack size to allow a pack containing 10 days or less to be available as a general sale medicine.”

Reckitt Benckiser also supports this change. This submission therefore asks for this change to be recommended by the Committee and put forward for gazettal.

There is no further supporting data for this application.

Reckitt Benckiser is very interested in the outcomes of the 45th MCC meeting and seeks to be included in any further correspondence.

Yours sincerely
RECKITT BENCKISER (NEW ZEALAND) LTD
