**Re: GONAL-<sup>f</sup>® Pen for injection, Solution for Injection  
(TT50-5593/4)  
Harmonisation of printed volume on GONAL-*f* Pen label**

Dear Healthcare Professionals,

GONAL-<sup>f</sup>® Pen is currently available in three presentations, i.e. 300 IU/0.5 mL (21.84 microgram), 450 IU/0.75 mL (32.76 microgram) and 900 IU/1.5 mL (65.52 microgram).

On behalf of Pharmacy Retailing t/a Healthcare Logistics, Merck Healthcare Pty Ltd wishes to advise you of editorial updates to the printed volumes (in bold) on GONAL-*f* Pen labels as part of global harmonisation initiative, as follows:

- 300 IU/**0.48 mL** (21.84 microgram)
- 450 IU/**0.72 mL** (32.76 microgram)
- 900 IU/**1.44 mL** (65.52 microgram)

The above changes are editorial only. There are no changes to the actual volumes in the pens and the actual dose delivered to patients in IU or microgram.

This letter is provided to ensure that patients are aware that the dose and their treatment are not changing.

Should you have any questions or require further assistance, please do not hesitate to contact our Medical Information team on 0800 426 252.

If your patients experience any adverse events, please report the adverse events to Merck Healthcare on [ICSR\\_ANZ@merckgroup.com](mailto:ICSR_ANZ@merckgroup.com) or the Centre for Adverse Reactions Monitoring (CARM) (<https://pophealth.my.site.com/carmreportnz/s/>).

Yours sincerely,

  
Sally Davis (on behalf of Fiona Rowland) (Oct 9, 2024 13:24 GMT+11)
