SUMAGRAN® (sumatriptan succinate) 100 mg, film coated tablets
– NZ-Specific Cartons with “Dutch” Foils

Dear Healthcare Professional,

We are writing to provide you of an important update regarding SUMAGRAN (sumatriptan succinate), 100 mg film coated tablets sponsored by Viatriis Ltd.

This Dear Healthcare Professional letter is regarding an alternative registered foil blister strip for SUMAGRAN. We wish to advise that a foil blister strip sourced from the Netherlands market will now be placed into New Zealand cartons. For your reference, images of the current and alternative foil blister strip are included in the table below (see page 2 for visuals).

There is no change to the film coated tablets formulation and appearance. The only variation is the foil packaging for the blister strips, which will:

- Appear in a different language
- Display trade name of ‘Sumatriptan Viatriis’
- Be a slightly different size and shape
- The Netherlands foil does not include a batch prefix

The alternative “Netherlands” foil blister strip is approved and will be available in the New Zealand market in the near future. Both existing (English/SUMAGRAN) and alternative (Netherlands/ Sumatriptan Viatriis) foil blisters strip product may be distributed concurrently in the short term. The use of the alternative (Netherlands) foil blister strip is a temporary change.

The alternative foil blister strip (Netherlands/ Sumatriptan Viatriis) for the SUMAGRAN film coated tablets, 100 mg will be for **batch 3202170A** and will have an **expiry of Feb 2027**. The SUMAGRAN external carton wording remains unchanged.
