**ZYPINE ODT (Olanzapine) 10 mg Orodispersible Tablets**  
**– Alternative Registered Foils**

Dear Healthcare Professional,

We are writing to provide you with an important update regarding ZYPINE ODT (Olanzapine) 10 mg Orodispersible Tablets sponsored by Viatriis Ltd.

To ensure continuous supply, a labelling exemption has been granted by Medsafe for Zypine ODT 10 mg Orodispersible Tablets to allow the supply of product manufactured for European markets into New Zealand for a short period.

The tablets produced for European markets are identical to the New Zealand product, with no difference in the formulation or appearance.

The blister strips from the European markets will be placed into the existing New Zealand-registered cartons. As the blister strips are from a different market, the following is of note:

- The foil text may appear in different languages, and/or
- The trade name printed on the foil may differ from 'Zypine ODT'.

Both New Zealand and European blisters may be distributed concurrently in the short term.

Images of the alternate blister foils are provided in the table overleaf.
